Dear Sir:-

I take pleasure in informing you that the Governors have appointed you a member of the Committee on United States Coins for the current year.

The other members of the Committee are Mr. William H. Woodin, ^{Chairman} 165 Broadway, New York, and Edgar H. Adams, 447a State Street, Brooklyn, N. Y.

Trusting that this will be agreeable to you, I am,

Very truly yours,

Mr. Wayte Raymond,
South Norwalk,
Conn.

Dear Sir:-

Following the suggestion of Mr. Edgar H. Adams, Chairman of the Committee on United States Coins, I take great pleasure in appointing you a member of this committee. The numismatic activities upon which the Society is about to enter are increasing, and I am sure the work, which your committee can do during the coming year, will be of the greatest importance to the Society and of interest to you.

A joint meeting of all the committees is hereby called for three o'clock on Saturday afternoon, March 31st, which meeting it is to be greatly hoped that you will be at leisure to attend. Please make a special effort to come.

Very truly yours,

President.

My Wayte Raymond,

Dear Raymond:-

Noe has left for the Army and he asked me to find out from you whether you have paid that bill to E. H. Courville for "Coins and their Values"., as we have just received another bill from Courville.

I remain,

Yours very truly,

Dear Mr. Raymond:-

In accordance with our conversation of yesterday, I
beg to hand you herewith a memorandum for the medal sent
to Mr. L. B. Morris.

Very sincerely yours,

Secretary.

June 7th, 1920.

Mr. Wayte Raymond,
489 Park Avenue,
New York.

Dear Mr. Raymond:-

This morning I received a letter from the owner of the Byzantine gold pieces for which you offered \$17.50. for the five. Will you let me have your cheque for this amount so that I can send it to her, or perhaps to simplify matters you might draw it to the order of the Society so that we can send a single cheque instead of three.

Very truly yours,

Secretary.

Mr. John Wenamaker,
Broadway & 10th St.
New York City.

Dear Sir:-

I wish to call your attention to the enclosed advertisement, which appeared in last night's Evening Sun. The statements contained therein as to the coinage of copper Cents for the United States are entirely erroneous. The obverse you illustrate with the head of Washington is that of an experimental piece struck in England, while the reverse belongs to the Fugio Cent of 1787, the dies for which were made in New Haven, Conn., and quite a number of the coins struck, although, they only had a semi-official standing. The first copper Cents struck with the full authority of the United States Government were issued in 1793 and I am very pleased to enclose for your inspection photographs of the three types issued in that year. The Chain Cent was the first to appear and the Wreath type and Liberty cap varieties follow in this order.

The American Numismatic Society and the prominent dealers of the country, among which I include myself are making every effort to promote the a proper understanding and appreciation of the science of Numismatics and it is most discouraging to see such an advertisement or article published and evidently written by someone who had no information whatever upon the subject.

I am taking the liberty of calling this matter to your attention as I feel sure that you would not wish to have your signature appended to any such misleading facts.

Yours very respectfully,

Wrote above to J W today

My dear Raymond:

Now that I want to write to you this morning, I cannot find the address you gave me and am sending this to your office in the hope that it may be forwarded promptly.

I have just received a letter from Wood saying that there now seems to be a hitch with Baldwin going to his questioning Wood's authority to close the deal, and suggesting that you write Baldwin confirming my letter - which, by the way, Baldwin seems to have misread. I think, myself, that this is just a little effort on Baldwin's part to gain time although Wood says that he has a hunch the Baldwin has written to Elser to find out what the pieces actually brought at the sale.

In regard to the Lutz piece, it seems that this piece is known to be a counterfeit although it originally came from a famous London collection. Perhaps you had better tell Baldwin to return it when you write.

I hope you and Mrs. Raymond are having a good vacation, and that your race of golf is constantly improving - or perhaps I should not admit that it is capable of improvement. This last too, alas, he taken two ways!

Very truly yours,

Dear Mr. Raymond:

This afternoon I had a call from Mr. Charles A. Cobb, an architect of 71 Bay Street, Toronto. He is anxious to secure a copy of Rees's 'Guide to the Seins of the Incidents' - the one of 70 plates. I think you told me you had a copy; if you still have it, will you kindly quote a price as soon as you get back in New York? If you have not, kindly write Mr. Cobb advising him how long he will have to wait for a copy if you order it from London.

Very truly yours,

Secretary

September 17th, 1920.

Mr. Wayte Raymond,
489 Park Avenue,
New York.

My dear Raymond:-

I am enclosing herewith the bill for books you ordered by phone with the exception of the Nettes' Colonial History. I am not sure what Mr. Lee intends to charge for this, presumably exactly what he did before but he may be willing to grant a discount similar to the others. He had left with us a list of prices for everything except the Nettes, and so I know the prices in the bill we are sending meet his approval.

Very truly yours,

October 22nd, 1920.

Mr. Wayne Raymond,
486 Park Avenue,
New York.

My dear Raymond:-

Mr. Lee has called my attention to your request to have Hill's book on credits balance our charge against you for Miller reprints. As those two things are carried under entirely different accounts on our books, and it will mix things up considerably to try to do just as you ask, will you send me a bill for the Hill book, which I will then have the book pay you, and you can then let us have your check for \$11.25.

I have been trying for some time to get down to see you again but my weekly meetings are now fast as expected and as my busy ones, and I have not had a chance though I hope now will come before long.

Very truly yours,

November 22nd, 1920.

Mr. Wayne Raymond,
489 Park Avenue,
New York.

Dear Mr. Raymond:-

I am enclosing herewith a bill for the two copies of Pettie's Colonial History, that we delivered to you a short while ago. We received your cheque for \$6.00 on June 18th for three other copies which you purchased from us.

Very truly yours,

Secretary.

Dear Mr. Raymond:

Some time ago you mentioned that you would
write for me a document on the prices of the
British Museum publications. Would this apply
to F. W. Marshall's catalogue of the Jewellery
Room, London and Oxford, published in 1910?
If so, will you kindly send a copy, and send it
with your bill when it arrives.

Are you also now receiving the American
University Press publications? The publications
ones I desire are Todd's 'Sage' and Marshall's
'Catalogue of the Great Britain'. Also, what about
the Oxford Press books?

Very truly yours,

Secretary

Mr. Wylie Ferguson,

Dear Mr. Ferguson:-

I have today sent off three (3) Hans-Wiekin
books you requested by parcel post, and enclose
herewith a remittance in money.

What I ask you to return three copies of
each of Solman's books ("Medals of the Confed-
eration" and "U. S. War Medals"). As frequently
have calls for these books, and as our supply is
completely exhausted, we would be glad to have
some of these you have at command.

Dear Mr. Raymond:

Just before you sailed, we sent to the binder for you four volumes of "Corpus Nummorum Italicorum", one of which was obtained from the publisher Hoepli, at a cost of 200 lire plus postage. Will you please look to see if there is a bill in Volume VI which was overlooked when it was sent to the binder.

For the other three, you were to pay Five Dollars each. Did you send us a cheque to cover this? I think not, because I believe I telephoned you about the fourth volume for which I can find no record of having received a bill. If I am correct, will you kindly mail the enclosed letter to Hoepli. If I am wrong, please destroy the accompanying memorandum bill.

Dear Mr. Raymond:

Thank you very much indeed for the four titles which Mr. Newell brought up yesterday, as a contribution from you to our library. They promise to be very useful, and I am very glad to have them.

I have been hoping for a chance to get down to see you since you got back but I have been away on vacation; and with the preparations of the Medal Exhibition, we shall be busy here for several weeks to come.

Your latest Bulletin is very interesting. I should like to see some of the pieces - but that will have to wait until later.

This will introduce to you two representatives of the University of Havana - Dr. Aristides Mestre and Dr. Aurelio Baza Masvidal. They have asked me to refer them to some one from whom they might purchase books on Greek Numismatics, and I have given them your address. I hope you will be able to aid them in obtaining such books as they want, and I feel sure they will greatly appreciate anything you may do for them.

When the two packages of pamphlets arrived, which you have so kindly presented to the library, I was not here, and I did not get a chance to look them over until yesterday. I am now writing to thank you very much for your generous gift.

A considerable preparation are titles which we do not have; and of the reprints, it seems likely that we shall be able to bind up a number in a way that will greatly add to the convenience of reference.

We much appreciate your gift. You are among the best friends of the library.

Dear Mr. Raymond:

Your letter of July 8th is at hand, and I note that you will send me the list of desiderata of the A.J.M. I do not have a duplicate of the reprints of Adams' Gold Coins, Part II, but we can furnish the issues of the Journal, which is almost indistinguishable from the reprint.

Permit me again to thank you for your gift of this consignment. There are a number of these books which promise to be decidedly useful. Some of them we do not have and others, although duplicates, can be used very advantageously. Please do not fail to keep for us any further material of this nature, rather than throwing it away.

Dear Mr. Raymond:

At last the case from MacDonald and Maier has been delivered to us. It contains a set of Dewey's History of Greece and Rome which will come in very nicely in the new reading room. The lot of catalogues I am very glad to have, especially those which have board covers which will obviate our having to bind them. Besides this, there are the bound works which are complete in themselves, and while some of them are duplicated there are a number that are not, and one for which I have been looking. Please tell me if you intended us to have the copy of Lippincott's Gazetteer which was indicated? I was unable to find anything marked with slips for the binder, but as I have now unpacked these things and have kept them separate, if you will tell me what you are missing I can immediately let you know whether it was in the case.

I tried to telephone you today and presume you may be out of town in connection with the 4th. I plan to be in tomorrow, the 6th, and from the 11th to the 15th. If you can call me on any one of these days, I can answer any questions you may have.

Dear Mr. Raymond:

Your note of June 2nd is at hand. The reference to the Vidal does not mention a specific mint, apparently because the number includes coins between 1556 and 1598. It does, however, assign them to Peru, which somewhat localizes the issue. I have added to your card the significant statements regarding this citation. If it does not suffice, please call me by telephone and I can easily read to you anything further that may appear.

Regarding Valentine's book, we are asking \$5.00 for it. Dear Mr. Raymond:

Thank you very much indeed for having asked the Scott Stamp and Coin Company to send me a set of your publications for them. I have just written Mr. Kusterer that their receipt enables me to reply to one inquiry received in the same mail. May I add that I think you are to be congratulated on the format. Despite some obvious objections the old Scott handbooks for both silver and copper coins have a distinct field of usefulness. I believe that carefully thought out new additions might embody the old excellences and enhance their value with some new ideas. Do you have anything in the nature of a check list or other record of "recently issued coins"? This might be made an annual affair and the acculations of the sheets would acquire a fairly considerable informative value ultimately. The report of the Foreign Coins Committee at our annual meeting would aid in the preparation of such a check list or leaflet. I should like to have a chance to talk with you but apparently I am kept as busy as you are at your desk.

Very cordially yours,

A letter from Casa Pardo just received informs me that they value the copy of Medina's "Monedas Chilenas" at one-half of the price they had placed on the two volumes, that is, at 75 Argentine paper pesos each. At the present rate of exchange, this works out \$18.75, as I make it. Will you let me know whether you care to have the Monedas at this price? You might telephone your response, in case that would be the simpler way of handling it, leaving word with Miss Grimes in the event that I should be away when you call.
